

Potion Making

You will need:

- Half a cup of lemon juice
- A few different cups of water with food colouring
- Half a cup of baking soda
- Different size bowls
- An assortment of large utensils

Once you've lined up your materials, leave it to the kids to initiate play

You can also encourage your little(s) to go on a mini forage for interesting additions to their potions!

Ours love twigs, dandelions and ripped up leaves!

If working on a dining table, a waterproof table mat is a great idea, spillages are inevitable and all part of the fun

When your little(s) begin to show signs of boredom, I find adding a teaspoon of glitter to their dry bowls is a guaranteed way to prolong the fun!

once you've finished with this activity, give it a new lease of life as a colouring sheet for your little(s)
